Alpha terra Foundation

-
-

The alpha terra foundation will be created by several donors, from the private sector and our community, in the service of a cause of general interest and not for profit. Thus, the foundation acts for beneficiaries by providing goods, rights and resources for the realization of our project, that of creating resources and projects for the protection of the environment, offering fair social micro credit, to develop possibilities and techniques and tools for the drinking water needs for people, to help the provision of healthy food to the populations, projects of means of education to the populations, development of communication and wifi tools, to improve the health care of a population, etc

The goal is to humanize the world of crypto and blockchain and see that the future of humanity is not on the Moon, but on Earth

OUR VISION:

Propose an ambitious Project and realize the fundamentals of a fair world and use blockchain technologies, technological innovation, a potential of our exponential crypto, future staking, rewards for an investment on for decades and make our token, alpha terra coin one of the most successful crypto in the world. The goal is to have the tools so that our investors have confidence and that our tokens go up I used the moon to allow our projects to come true by helping Humanity in a Fair World in all fundamental areas of life.

Why in Binance smart chain?

We made our choice of our Alpha terra token on the smart chain binance for multiple reasons. Consensus mechanism, the speed is faster and the transaction costs and fees are low for our investors. Binance Smart Chain (BSC) is a hard fork of the Go protocol of Ethereum (Geth), much improved and DApps and tokens built on BSC are compatible with the Ethereum virtual machine (EVM) The BSC is growing strongly and it is efficient and secure. There are several million active addresses and the BSC is linked to the largest exchange in the world ... Binance. An important factor is also NFTs and compatibility with cryptocurrency wallets such as Metamask and Trustwallet. In addition, it is more interesting to move their funds and interact with smart contracts on the BSC With all its advantages, the BSC is a natural, judicious and interesting choice today
