Introduction:

Welcome to the introduction of our Alphaterracoin Project.

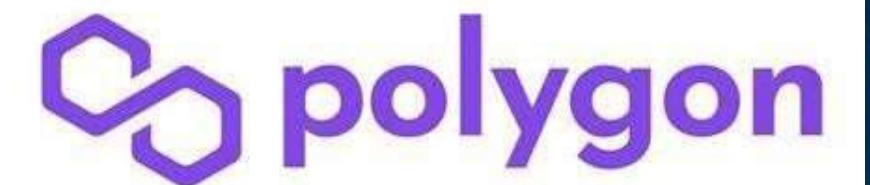

Our vision is to offer a serious alternative to fiat money by offering the investor a strong and viable digital asset and using smart contract and blockchain technologies of 1 billion tokens and offering a collection of NFT Collector under the image of avatars (Princess Alphaterra and Alfat Man who are the super heroes of our project and who support our multi blockchain projects.

Our vision is futuristic and innovative, we want to offer our Alfat token under DEX and then CEX to potential investors.

The goal is to offer a digital asset using Ethereum-Binance smart chain-Polygon technology and offer these rare and collector's NFTs under Opensea.

We will offer our Alfat token on all decentralized exchanges (pancakeswap and uniswap-Sushiswap and others...)

Be present on Coinmarketcap and Coingecko and expand our NFT production services in 2 D and 3D of our avatars and the virtual world in which they live to retain the essence of a saga in a unique collection and a cinematic film and a galactic strategic games and then the creation of a unique creative and innovative blockchain and then offering real multi-services to investors and giving life to a real digital asset that can be used in everyone's real life as an alternative to rare digital currency and potentially usable for everyone and then offering global multi-services.

Cryptocurrency Project Overview:

Our goal is to have an overall vision and to use blockchain and smart contract technologies and NFT technologies to offer a strong digital crypto currency and a digital and real bridge that can then be used between the web3 world and that of code with the possibility of being able to monetize the Alfat token into a digital and artistic token and then offer multi-services monetizable worldwide in a total supply of 1 billion tokens.

Our two avatars, Princess Alphaterracoin and Alfat man, are our two mascots, who will help us promote our project and will be our two warriors of justice for our Collector NFT collection and our next strategic games and our two invincible super heroes who will then offer our services.

Key Features and Benefits:

The project is unique and offers the junction between the code and an undeniable possibility of offering a virtual and digital currency with a scarcity of 1 billion tokens using the Ethereum and Binance smart chain blockchains and having low transaction fees in swap and exchange. and smart contract technologies that are secure and usable in all exchanges, decentralized and then centralized and the Alfat token is unique for its rarity of offering for the first time in the world cryptocurrencies, super hero avatars (Princess Alphaterracoin and Alfat man) which will be more than realistic in a bridge between the digital and their virtual world and our planet Earth to offer an artistic and positive solution of virtuo-real graphic nft crypto currency.

KYC of the Alphaterracoin project verified by Coinsult:

We are pleased to inform that the Alphaterracoin project is serious and has undeniable potential value and that the KYC has been verified by the Coinsult team

(Coinsult is a pioneer in blockchain security, utilizing best-in-class manual security checks and AI technology to secure, develop and monitor blockchains, smart contracts, and Web3 apps)

Coinsult is trusted by :Pinxsale Dexview -- Coinsniper.net - Coingecko - Coinmarketcap - Blocbusiness

Audit Smart Contract of Alphaterra (Alfat) Code Review and Security Analysis by Block Solutions:

Smart Contract Code Review and Security Analysis Report
for ALPHATERRA ERC20- BEP20 Token Smart Contract

Contract Token name: Alphaterracoin

Symbol: Alfat

Total supply: 1000000000 Alfat

Token contract 9 decimals: 0x834eE470Ddb53b9337f07D909B10461C3035bb38

Contract Source Code Verified - MIT license

source code Solidity: Compiler Version

v0.6.12+commit.27d51765

Owner Address: 0x937cd31d806fc4ebd9a5a70c34809482e3166b6b

Blockchain Platform: Binance Smart Chain Mainnet

link to audit:

https://drive.google.com/file/d/1pBLL_yHMq_2eI-Zq6oErJYTz6pRQjX-h/view

Overall audit result: Passed

Executive summary:

According to the standard audit assessment, the client's solidity smart contract is well secured.

We used various tools like Mythril, Slither and Remix IDE.

At the same time, this observation is based on a critical analysis of manual auditing.

All issues found during automated scanning have been manually reviewed and vulnerabilities applied are presented in the Quick Stat section.

Overall audit result: Passed

We have found:

- 0 critical issues,
- 0 problem high,
- 0 average problem
- 0 low level issues.

Tokenomic:

Blockchain: Binance Smart Chain

TOKEN ERC20-BEP20

Token Name: Alpha terra

Token Symbol: Alfat Total supply: 1billion

Decimal: 9 decimals

Presale Step 2: 10 million token Alfat

Contract Link:

<https://bscscan.com/address/0x834eE470Ddb53b9337f07D909B10461C3035bb38>

New generation token with great value (test and verify and deflassionist and anti whale)

Testing on test net before deployment on main net. Add liquidity on test swap exchange

Code source solidity is with new version of solidity, secure and testing.

Token is 100% secure and verified and Alpha terra is deflationary token. burning token

Marketing wallet address is adding into source code and verified

Topics fee : public tax fees:1 , public liquidity fees: 3, public burn fees :1, public marketing fees:1.

Anti whale process

Trade Open mechanism to make safe the token from bots on adding liquidity

All these important characteristics of the token give a great professional value and a great future and future to the project and a secure and efficient token

Contract Source Code Verified: Compiler Version v0.6.12+commit.27d51765

History of Bitcoin, digital GOLD:

Bitcoin is the work of a person or group of people hiding behind the pseudonym “Satoshi Nakamoto”. He (or she) was able to converge different technologies combining cryptography and distributed registers in order to offer a value network without trusted third parties

In 2008, a certain Satoshi posted an article online describing the operation of a digital exchange system based on a new technology, the blockchain. What is exchanged on this system are not euros or dollars, but digital assets called bitcoins.

Bitcoin was created with the objective of competing with traditional currencies by giving citizens back control of their money via a decentralized alternative to traditional financial and monetary systems.

the main attraction of bitcoin lies elsewhere. More than an asset that can contribute to the diversification of a portfolio, many see it as protection against inflation, a real “digital gold”

History of Bitcoin, digital GOLD:

It is in this context that Satoshi Nakamoto published a white paper in 2008 entitled “Bitcoin: a peer-to-peer electronic payment system” in which he proposed giving citizens control of their money back via a decentralized alternative to systems traditional financial and monetary

value of bitcoin on July 24, 2024: \$66,269.99

Market cap: \$1,307,531,824,145

Circulating supply: 19,730,375 BTC

93.95%: Total supply

Max. supply: 21,000,000 BTC

The crazy story of NFTs:

What are NFTs? Definition of NFT: If the term was only invented by Dieter Shirley in 2017, the first digital work to be associated with an NFT (non-fungible token) type certificate of ownership is the “Quantum” animation of the artist Kevin McCoy, date 2014.

An NFT guarantees exclusive ownership of a digital asset (for example, that of a work of art, a purchase in a video game or a tweet – yes, a tweet!). You can buy an NFT at a certain price, but the fact that it is non-fungible allows its market value to fluctuate.

A way to benefit from an asset with significant upside potential. Since NFTs are unique, the associated feeling of scarcity can increase interest in certain NFTs, thereby driving up their price. It is indeed possible to make significant profits if you invest in the right NFT.

The crazy story of NFTs:

NFTs can predict a time in the future when individuals will use cryptocurrencies and blockchain technology in their daily tasks without even realizing it. The global NFT market is expected to grow from USD 3.0 billion in 2022 to USD 13.6 billion in 2027, with a compound annual growth rate (CAGR) of 35.0%.

NFTs are above all digital assets stored on the blockchain. And just like cryptocurrencies, one of the most secure methods to store your NFTs and send them to a hardware wallet, also called “Hardware Wallet” or “Cold Wallet”

Road Map

STEP 1:(01-12-2021 to 01-09-2022)

- Native project analysis (concept) and research
- Creation token on binance smart chain (Bep20) 2d and 3D

logo creation

- White paper
- ICO Website Development
- Community and social network creation
- ICO and Presales. Step 1 in ico platform
- TEST in pancakeswap is be done Presale Launch &

Liquidity Locked

- Marketing Campaigns basics and emailing campaign

STEP2 :(01-09-2022 to 01-01-2023)

- Worldwide Marketing Campaigns and influencer (emailing, facebook, Instagram, Promotion Youtube video and youtube channel) etc...

- 13 November 2022 creation of unique card 3D animation

- 3 December 2022: Creation of art collection metadata NFT card 2D and 3D (440 NFT)

- Analyze vital needs and international network development
- I.A. Services analyse andtools.

STEP3: (01-01-2023to 01-07-2023)

January 15, 2023: creation of Minting web page for NFT
Minting Metadata Art Collection

(<https://nftmint.alphaterracoin.com/>)

March 2023: Listing 440 Exclusive NFT Minting in
OPENSEA

<https://opensea.io/collection/alfaterracoin-superhero-collection>

<https://opensea.io/collection/cryptoalphaterracoin-collection>

Improve design siteweb and propose more NFT and more
tools for sales token and swap tools and sales NFT

Increase research international partners development aid

Increase team by continent and needs

Increase worldwide advertising and promotional video

Increase investor contact and community communication
team

A/ June 13, 2024: liquidity pool created on pancakeswap

-<https://www.geckoterminal.com/bsc/pools/0xa365319f22c509937a538faee4f7f4839dda097c>

Step 4 : (01-07-2023 to 01-04-2024)

Increase worldwide advertising and promotional video Increase investor contact and community communication team

Creation of cryptos and technologies news and technology free in platform

Alphaterracoin: <https://cryptonews.alphaterracoin.com/> Nov, 3, 2023:

All the presales step is closed 01 april 2024 for security.

All ico is closed and we begin listing in DEX.

Listing in pancaakeswap - uniswap and soon Sushiswap and others DEX

Relisting NFT Collector exclusive art collections of avatars: Princess

Alphaterra and Alfat Man

Alphateracoin Project's global professional team

We are pleased to have a team of professionals working around the world in the development of our project. (from the United States - Europe and Asia)

From the creation of the secure Alfat token and its unique logo, to the creativity of the creator of the Alphaterracoin website.

From smart contract and Solidity technologies, our team is professional, innovative and serious.

Contract has been deployed- All tokens sent to the wallet of owner- Ownership sent in wallet - token test net - deployed on Binance test net and after in Binance smart chain.

We also work with professional visual content creators and teaser creators to promote our project.

From a unique creator team for our NFT Collector exclusive art collection created under smart contract Polygon and minted and put on sale on Opensea.

Of the promotion of youtuber recognized for the promotion of our Alphaterracoin project.

Of the creativity of the generated 2D and 3D nft cards and their unique value.

of the creativity of the unique videos promoting NFTs and our project by a team of professionals.

Alphateracoin Project's global professional team

Of the creation of the NFT minting website, nothing was done at random, it is our choice to work and propose a unique project carried out by professionals in Blockchain technology and smart contracts, specialists in Solidity code and Ethereum, Polygon and Binance smart chain blockchains.

Of working with a young and serious team for the Audit of the project and KYC.

Of working with professionals for the creation of our Twitter page (X), Instagram and Telegram to count on thousands of people following us in our Community.

Thousands of hours have been spent by our team and tens of thousands of euros of investment

We are proud of Alphaterracoin project and we will not stop there, we will continue to innovate and offer an incredible project to our investors

Bravo to the owner of the project, Mr. Daifa, the creator of the project and for his creativity and his enthusiasm and his professionalism

Welcome to our white paper, revised on July 26, 2024

The Alphaterracoin community with thousands of followers

We are pleased to have a strong community that supports our Alphaterracoin project on social networks, as well on twitter, on instagram, on telegram with 3 different groups, as well as on our youtube channel
